

Bitcoin Cash

- SegWit was not enough!

some of the bitcoin community felt that adopting BIP 91 without increasing the block-size limit favored people who wanted to treat bitcoin as a digital investment rather than as a transactional currency.

- Like Bitcoin with segwit, but now with 2MB blocks!

Bitcoin Gold

- Moves to Equihash ASIC-resistant PoW algorithm
- Premined \$33 million before fork was opened for public use
- launched early with several high-value “bug bounties” still live
- Fraud?
